

Dear Parent/Carer,

Important information about your Health Visiting and School Nursing service

We are writing to let you know about a change to the organisation providing Salford's Healthy Child Programme, which includes Health Visiting and School Nursing services.

From **Thursday 1 October 2026**, the service will be provided by **Locala Community Partnerships CIC** instead of **Northern Care Alliance NHS Foundation Trust**.

Locala is a social enterprise that provides community health and wellbeing services across the North of England, working with children, young people, families and communities to improve health outcomes and support people to live healthier lives.

While the organisation providing the service is changing, this will not affect the support available to you. The same Health Visiting and School Nursing staff are expected to continue working with children, young people and families, and services will continue to be delivered in the same way.

You do not need to take any action because of this change. You do not need to register again or make a new referral. Any appointments already arranged will continue as planned unless a member of the team contacts you directly.

To make sure that care continues safely and without interruption, relevant health records will be transferred securely to Locala. Your personal information will continue to be handled confidentially and in accordance with data protection legislation.

Salford City Council, Northern Care Alliance and Locala are working together to make the change as smooth as possible, with no disruption to services for children, young people and families.

If you have any questions about the change, please contact:

Email: enquiry@locala.org.uk

Phone: 0303 003 4529 (select option 2)

Web: www.locala.org.uk

Yours sincerely,

Gillian McLauchlan

Director of Public Health, Salford City Council
