

Photography for Sustrans – gift vouchers available!

We're the national charity which helps more people walk, cycle or use a mobility aid like a wheelchair or mobility scooter for short journeys to school, work or shops. We would like to photograph the low traffic neighbourhood in Trinity as a great example of changes which are reducing traffic levels and helping more people feel safer on the streets. You can see some examples of our work and the images we like to take in our [Walking and Cycling Index](#).

We're looking for four or five families of diverse backgrounds, including disabled people and people from ethnic minorities, to pose for photos walking, cycling, scooting or using a mobility aid. The images would be used on our website, social media, local and national newspapers, or print media such reports, leaflets or posters.

We'll be outside St Philip's school in Salford from 8.30am on Monday 19 June. If parents have time after the drop off we will be doing more pictures on other streets in Trinity where there are traffic restrictions in place.

We have some shopping vouchers to give away for up to five families. If you would like to be involved please get in touch! We do ask everyone to fill out a consent form. we will have these on the day but if you can fill out one ahead this saves time.

Contact details are: sarah.roe@sustrans.org.uk or m:07847 372647.
